For District Judges,

RICHAD RISING,

Of Storey; DE WIFT C. MOKENNEY,

Of Lander;

R. R. BIGELOW. Of Elko.

REPUBLICAN STATE PLAT-FORM.

The Republicans of Nevela, in convention assembled, reaffirm their unfaltering loyalty to the principles of the party as enumerated in their unfolal platforms, from Lincoln to Blaine. We believe that liber y is the inslienzible right of every man, whatever his race or color, and in the equality of every man before the law, with the unrestricted right of every citizen to east his voto for whomsoever he chooses, with the assurance that it will be counted as east. The preservation of the Union and free government are now recorded in history as the work of the Republican party. Union, liberty, equility and a protective turrif have largely contributed in making 30.050,000 of people the best fed, the best clothed, the happiese, the most intelligent and powerful that ever existed on earth. The clevation of labor by the abolition of slavery and the unterropudation of caste and aristocency by the Republican party has opened to free men and free labor every acre of land within the jurisdiction of the united States, and has enabled the tolling millions of the North and of the South to associate in one comm in brotherhood for the protection of their rights and the advancement of their intellectual and material prosperity.

We arraign the Democratic administration of President Cleveland for having failed to keep the piedges on which it came into power. It promised economy and retreachment, and has been most extravagant in expenditures and appropriations, which, for the current year. largely exceed the abundant revenues of the Government. It promised to reduce the surplus in the Tresaury, but reversing the rule of previous Administrations, has premitted such surplus to lie idle and accumulate to the injury of the business of the country, and has refused to approve of the action of a large majority of both Houses of Congress directing that such surplus be applied in phyment of the interest-bearing debt of the country. It promised to care for and give attention to the disabled soldiers and sailors of the late war, and has treated with contemptatous veto every limit which it could find any ical objection. It promised and an and property of citizens abroad, and to maintain the of the nation, yet in its retrieval.

of the n tion, yet in its re-ritain it has shown itself estion to either person permitted our flag to be protest, almost in POLITICAL.

in the capital of this State. It has used the entire power of the Administration to destroy silver as money, and by a refusal to execute the law and pay out silver for Government dues has kept the metal out of circulation, and by various devices it has reduced the price of silver since the inauguration of President Cleveland more than fifteen per cent. It has closed many of our silver mines, and thrown thousands of honest laborers out of employment.

We favor a tariff upon the imported products of low-priced foreign labor, so as to protect the interests of American wage-workers, and for the development of American industries. We demand in behalf of our mining interests the maintenance of the present tariff on lead, borax, soda and other mineral productions, and in behalf of our wool-growing interests a restoratio of the wool tariff of 1867, and we denounce the recent attempt of the Democratic majority in the National House of Representatives to pass the Morrison bill reducing the tariff on the products of our mines and placing wool on the free list.

IV. We believe in American soil for american citizens, and are opposed to non-resident aliens becoming landowners. The public domain should be reserved as homesteds for actual settlers, and the accumulation of large tracts or bodies of land in the hands of corporations or individuals should be discouranced, and in the case of land grants to railroad corporations where the corporations have failed to comply with the conditions of the grants the land should be forteited to the General Government, and held for the benefit of actual settlers.

We favor the intelligent organization of labor for such worthy purposes as mutual education and for the protection of their interests in all things relating to their wellare not the industrial welfare of the country, and we favor the electment of Sinte and National laws preveiding for the settlement of controversies between employers and employees by methods of voluntary arbitration, or by the establishment of courts of conciliation, which will avoid the w sto, loss and ill-feeling resulting from strikes and lock-outs, and the assual expensa of litigation.

VI.

VI. We denounce the action of the Democratic House of Representatives at its last session in striking from the bill to compensate the citizens of this State for losses susta neal in the Indian wer of 1860 all claims for supplies for mished for the suppression of Indian host littes, and also for services rendered during that memorable struggle in which the lives of a large number of our most respected citizens were sacrificed.

We denounce the pretense of the Democratic party of having sympathy for the eause of local self-government in Ireland while the Democratic House of Representatives, in Committee of the Whole, repeatedly refused to endorse that principle. In the months of April and Jun-hast that body, by Democratic vetas, on several occasions rejected a resolution indorsing a free Parliament for Ireland, which is fulfield wing words:

"Resolved that the House of Representatives connectly sympathizes with Right Hom. Wm. E. Chadstone and his associates in their efforts to secure a free Parliament for the people of freiand, and congratulates the people of that hitherto unhappy country upon the prospect of an early and suc easiful termination of their long and patriotic struggle for the right of local self government."

Thereby destroying the growth of a libera

Thereby destroying the growth of a libert spirit throughout Great Britain. VIII.

We commend the efforts of Senator Jones and Congressman Woodburn in obtaining an appropriation of \$30,000 for public land surveys in this State, and we condeann the action of the Commissi ner of the General Land Office in which the condition nearest appropriated for that purpose, and particularly condens the action of senator Patr in absenting himself from Washington during all the time when appropriations for this State were under consideration by the Sounte.

We enderse the action of Senator Jones and Congress man Woodburn in their efforts to suppress polygamy in Utah, and to check the growth of disloyalty to the Government in that Territory, and we fully endowse the principles of the bills introduced for that purpose by Congressman Woodburn. We endorse the action of the Republican Senate in passing in the early days of the last session of Congress a bill well calculated to suppress the growing owil of polygamy, and check the growth of the hostile power of the Mormon Church, which is threatening the peace and tarnishing the good name of the United States. We condemn the action of the Democratic House of Representatives in refusing during all the long session of Congress which has just closed to consider any measure tending to relieve our country from the blighting curse of polygamy and polygamous rule in Utah and the surrounding Territories.

We are apposed to the further importation of Chinese to this country, or any other foreign laborers, under the centract system, and we favor any plan for the rollef of free labor from competition with convict labor, which does not impose upon free labor the expense of supporting convicts in idleness and useless lacor. And we favor the adoption of laws providing for the protection of vorkers in our mines and other hazardous callings, and such other measures as will improve the material and social welfare of our industrial population. We are excuestly apposed to the doctrine of the socialed Amerchists, and we believe in the most perfect protection to each and every individual in the enjoyment of the fruits of all his personal efforts to earn an honest livelihood. XI

The paramount interest of civilization requires that the money used as a circulating medium in any country shall at all times hear a constant ratio to the increasing population of the country. Goatraction of the currency involves all fluancial evils to which a nation can be subjected, among which are robbery of the debtor, stagnation of business, reduction of wages and the enslavement of the masses for the benefit of bondholders and grasping creditors. We denounce the benched to bondholders conspiracy to demonstize cilver and contract the money of the world to a single gold standard as a crime against civilization. It would double the obligation of bonds and all other contracts for the payment of money, which new aggregate in the civilized world the enormous sum of more transpiration of bonds and all other contracts for the payment of money, which new aggregate in the civilized world the enormous sum of more transpiration of bonds and all other contracts for the payment of more than one hundred thousend million dollars, and thereby make the rich richer and the poor poorer, and impoverish the masses for the busefit of the favored few. We are therefore, in favor of the free and unlimited coinage of both gold and silver upon the basis now provided by law.

We condemn the Democratic House of Representatives for refusing to make the necessary appropriations for the construction of a suitable navy for the defense of cut commerce and the protection of our citizens at home and abroad, and we particularly condemn it for refusing to make any appropriation for fortifications to protect our extensive scacoast while there was a vast surplus in the Treasury, and thousands of laborers out of employment.

XIII We again declare our constant sympathy with the Just and consistent Republican policy and practice of granting out of the nation's abundance generous pensions to the disabled veterants of our wars, whether for the country's defense or for the preservation of the Union. We preserve that the unity of the Union solutions to make way for partisan rivilians and ex-Compderates.

XIV. In common with all loyal people of the land, we mourn the loss to our country of the heroic dead, and especially that great Republican as well as great sodier; and sateaman, Utyases S. Grant. His life will forever be an inspiration to POLITICAL.

high and honorable manhood, patriotic devotion to our country and loyalty to the principles of Republicanism which he so fittingly represented and did so much to advance. We shall ever treasure his memory and cherish his deeds. xív.

XIV.

It is the duty of this State to maintain free schools, not only in towns and thickly populated sections, but in the rural and sparsely settled districts, and as the education of pupils in the sparsely settled sections of the State is necessarily more expensive per capita than where a large number of pupils can attend the same school, such a division of the school money should be made as will furnish the means of education to all children in the State.

XVI. XVI.

Expenditures beyond the means of private individuals are required for surveys, engineering and the construction of reservoirs, canals and other hydraulic works, for the purpose of irrigation in this State. We, therefore, favor liberal appropriations by Congress for surveys, both hydrographical and lopegraphical, to assectation how the waters of this State, which now run to waste in fixed time, may be stored and utilized for the purpose of agriculture, to the end that when all the facts are known, suitable aid may be obtained from Congress to enable the Government of the United States to dispose of its lands, and to enable the people to settle upon and occupy the same. and occupy the same. ZVII.

NVII.

Resolved, 'That two years' experience has demonstrated that the presentjury law, which compels citizens, at their own expense, without regard to their pecuniary ability or the losses they may suffer, summarily to suspend their usual occunations, break their business engagements, travel long distances and remain from their home for an uncertoin period, and attend upon District Courts as jurymen, is a measure of unwise economy, often productive of great hardship and an unjust imposition of public burdens upon private individuals. We, therefore, demand of the next Legislature such legislation as shall secure to all citizens fair compensation for all the time which they spend, and tult resimbursement for all expenses which they incur in performing the duties of jurymen in the District Court. XVIII.

triot Court.

NYIII.

Resolved. That we point with pride and pleasure to the able and brilliant record made by our Scrater in Congress, the Hon, John P. Jones, in his watchful a d vigilant care of our interests upon all occasions, as are fully shown by his unanswerable speeches in Congress against the reduction of duties upon foreign manufactures and foreign productions, which exposes in a masterly style and in a clear and foreible manner the free-trate doctrines of modern Democracy. His able and exhaustive speeches made upon the remonetization of silver, particularly the last speech in Congress upon that subject, in which he has dispinged more strongly his ability to render the obstruse subjects in telligent to the most common mind, thereby replacing and uphelding the old time-honored American d.diar of our fathers in its rightful position as part of our circulating medium and purchasing power, and his legical and overwhelming arghments in favor of the passage of the Chinese Restriction and Exclusion bill, and amendments thereto, during the last Congress.

Resolved, That our able Representative in Congress, the Hon. Wil iam Woodburn, deserves the united thanks of the people of this state for his constant zeal and watchful care ever the true interests of the people of this tate, and that we recommize in him an able statosman, a faithful Representative and an honest man, and we say: "Well done, thou good and faithful servant; tenswed honors await thee."

Resolved, That we are unalterably in favor of home rule in Nevada, and beliewe that the men who pay her taxes and whose homes and interests are identified with the State should control its polities.

Mannakent.

We believe it is the duty of the National

We believe it is the duty of the National Government to pass laws regulating the great railroad corporations of the country, protecting the people from extortions and unjust discriminations, and we approve the principles of the bill passed by the United States Senate, known as the Culton bill, and urge our Senators and Representative in Congress to have the same grafted upon our national law.

Resolved, That we demand that the next Legislature shall pass laws in accordance with the plan known as the Nebraska plan for the election of United States Senator. AMENDATION

PLAT-

First—The Democratic parity of the State of Neyada, through its representatives in convention assembled, at Eiko, on the 9th day of September, 1886, re-affirming its hearty indorsement of the declaration of principles adopted by the National Democratic party at the city of Chicago in 1884, among which, upon the question of coinage and currency, are the following plain statements of Democratic faith and the principles upon which the party appealed to the suffrages of the people of the several States in the late Presidential campaign.

"We believe in honest money—the gold and silver coinage of the Constitution, and a circulating medium convertible into such money without loss."

We therefore d mand that good faith shall be observed with the people by the Democratic Administration by religiously adhering to the money plank, as it does to every other plank of the Chicago platform.

Second President Cieveland, in his wise conservative and patriotic administration of our public affairs, both foreign and domastic, challenges our highest samivation, except in following the beaten path of his Republican party on the silver question, in disregard of the cherished principles of the National Democratic party.

Third—We demand of the Administration, at

predecessors and the policy of the Republican party on the silver question, in disregard of the cherished principles of the National Demeratic party.

Third—We demand of the Administration, at Washington, that it shall second the efforts of the Democratic Representatives in Congress to give the people free coinage of Silver, notwithstanding the formidable combination existing between the gold rings, National Banks and the National Republican party to maintain the single gold standard. The action of the Republican party in California in refusing to insert a silver plank in their platform descreas the condemnation of the silver-producing people of the mining regions of the Pacific Coat. Fourth—We indorse the pointy, as fast as it may accumulate, to the payment of the National dubt, retiring as rapidly a practic ble the National Bank circulation, and the direct isane by the National Government of legal tender Treasury notes, gold and silver coin and coin cert cates.

Eith—We arraign the Republican party before the bar of an enlightened public opinion for its high oims committed against the public heave, and against the best interests of the white laboring classes of both sexes, by its invitug and encouraging the influx of Asiationard under the crazy shibbolethor "The Fatherhood of Gold and the Brotherhood of Man," until there are planted among the people of the Pacific States and Territories, like so many leaches sucking the life-blood of our substance, 150,000 Chinese coolies.

Sixth—We demand the immediate abrogation of the Euringame treaty and the total suppression of Chinese in the United States, and we recommend the exclusive patronage of white labor and its produce.

Beyenth—The introduction by Senator Fair of hig Chinese Restrictivition bill-and kis successin passing the asmed deserves the approval of the centre people of the Pacific Coast.

Elightin—A proper regard for the welfare of the workinguen being inseparably connected with the integrity of our institutions, the laborated and the produced in their e

MISCELLANEOUS.

Ninth—We are in favor of libes free labor. Rudolph (the nucle). Bert Cunningham that is purely bred, and worth something to their herds, they could sell two-year-olds as heavy as their three-year-olds now average, saving a year in time, and the cost of keeping and all attendantitisks for a year. I recently sold thirty beef steers, all three-year-olds but six, which were four years old. Among them was a one-balf Short horn steel, bice years old, and in no way super, or to the average half-breed steer, that weighed stive, after driving twenty-six miles in one day, 1,284 lbs. The other Supt. H. M. Ye ington came down twenty-nine made an average live weight Plumus; dam Boston. of 1498 Ps., and dressed only 50 per cent. of live weight, or 521 pounds, while the grade short-horn dressed 730 lbs., or 57 per cent. of live weight. He dressed 80 lbs more than the best four-year-old, and 206 lbs. more than the twenty-nine head averaged. This steer ranged in the mountains with the others and ted with them, showing his contempt for the stale and false notion that short-hours around the stale and false notion that short-horas cannot rustle for a living, and proving their addity to outgrow ther animals under equal conditions. All this is simply the result of using a pure Short-horn sire. This steer did not cost me any more than the others and on the butcher's block brought me over \$15 more than they did. Now I should like to ask such of your readers us think they cannot afford to buy thoroughbred sires, how many half breed Short-horn steers it will take to pay for even a \$500 bull, out of the extra pounds of meat they will dress over and above the animals they are now raising? The first forty steers raised will cover the price. When there are forty steers those was be forty hossers that will be worth \$2.50 a head more than their and its as a foundation for further improvements. To all intents the sire is rill the hard in determining the force

P. Hughes, in the topography of the State. There spector General of the United States never has been a map of the State propared that was worthy of the name, and it is bound to receive the commendation

The counties are printed with different colors, making it altogether an oinament to any school house, office, saloon or private room as well as valuable

The map has been compiled by John W. Parker, the Chief Draughtsman of the United States Surveyor General's Office at Reno, who holds the copyright, and is the condensation of all information on file in that office, as well the colebrated War De artment maps prepared by Lieutenant Wheeler; he has dso at his command other recent and ichable data on which to rely, and the map is issued to the public in the firm

belief that it is in every way authorice.
Call at Caysin & Notownio's and take

Remarks and Conditions. deminations to stakes situst be made to the escelary on or before the first day of August. Entres for the purper must be made:

Minday's races on the Saint, sy preceding:

Weightstay's races, on Mousey and for

Friday's races, on Wednesday, at the regular time for clusting entrice as designated by the rules. Those who have nominated in stakes must name to the Secretary in writing which they will start the day before the race, at 6 r M. Horses entered in purses can only be drawn by the consent of the Judges.

The rules of the Pacific Blood Horse Association will govern running races.

All horses chet red for State purses must be owned and kept in Nevada and California, east of the Sierra Nevadas, for six months prior to day of race.

Entries to all trotting races will close September 1st, with the Secretary.

Five or more to enter and three or more to start in all races for purses.

National Trotting Association Rules to govern trotting races. Pacific Coast Blood Horse Association Rules to govern running races, except as above.

All trotting and pacing races are the best three in five, unless otherwise specified; five to enter and three to start. But the Board reserves the right to hold a less number than five to fill, by the withdrawal of a proportionate amount of the purse. Entrance fee, 10 per cent, on purse, to accompany nomination. Trotting and pacing purses divided at the rate of 50 per cent, to first horse, 25 per cent, to second, 15 per cent, to third, and 10 per cent, to fourth.

National Association Rules to govern trotting; but the Board reserves the right to trot heats of any two classes alternately, if necessary to finish any day's racing, or to trot aspecial race between heats. A horse making a walk-over shall be entitled only to the entrance money paid in. When less than the required number of starters appear they may centest for the outrance money, to be divided as follows: 65% to the first and 33% to the second.

In all racis entries not declared out by 6 r. M. of the day preceding the race shall be required to start.

Where there is more than one entry by one person, or in one interest, the particular horse they are to start must be named y 6 r. M. of the day preceding the race. No added money paid fo

Special Premiums-Equestrianship.

Ladies' Grand Tournament for the most accomplished and grangful hely ridges Wadnes complished and graceful lady riders, Wednes-day and Friday, October 18th and 18th, at 10

day and Friday, October 16th and 18th, at 10 octock A. M.,

PARKER'S NEW MAP OF NEVADA.

THIS NEW AND BEAUTIFUL

OF THE STATE,

Has Just Been Published, and is Now Ready for Sale.

It has been completed with great care in order to insure its being strictly correct, and furnishes a vast fund of valuable information regarding the topography of the State. There never has been a Map of the State prepared heretofore worthy of the name, and it is intended to fill a long-felt want on the part of citizens. It has been lithographed at large expense by the famous publishing house of Rand, McNally & Co., of Chicago, and does great credit to their well-known skill in the art. The Map is drawn on a scale of 12 miles to the inch, and shows all surveyed Townships up to date of issue, also all Mountain Ranges, Valleys, Rivers, Creeks, Brooks, Streams and Lakes; it also shows the correct position of all Indian and Military Reservations, and all Cities, Towns and Settlements; also all Railroads and the principal Wagon Roads. The County Boundaries are also depicted with absolute correctness, which is something that no other Map has even approximated to.

The Map is printed on the best of paper, and mounted with stick, top and bottom, with tape on edges and varnished; it is also printed on thin, strong paper, which folds up in stout covers for pocket form. The Counties are printed with different colors, making it altogether an ornament to any school house, office, saloon or private room, as well as valuable for instruction and reference.

The Map has been compiled by John W. Parker, the Chief Draughtsman of the United States Surveyor-General's Office at Reno, who holds the copyright, and is the condensation of all information on file in that office, as well as the celebrated War Department Maps prepared by Lieutenant Wheeler; he has also had at his command other recent and reliable data on which to rely, and the Map is issued to the public in the firm belief that it is in every way authontic.

The Price of the Map is \$5.00,

And copies will be sent to any address, postpaid, upon receipt of the money. Parties ordering will be careful to state which style is desired-mounted or pocket form.

> John W. Barker, Reno, Nevada.

REPUCLICAN (1994) PLAT-

The Republicans of Washoe county, in convention assembled, present the following declaration of principles and purposes, and pledge themselves and the nominees of this Convention to their faithful and earnest support and endersement.

Full d.

We denounce the attempt of the present administration to further restrict the coinage of silver and thange the major of standard values from gold and silver to gold alone, as an act of monstrous injustice to the mining interests of our country, and demand that a double standard be established of both gold and silver, and be maintained as the basis of our money system as established by the Constitution of the United States.

We, is a party, are most emphatically op-posed to the further immigration of Chinese, believing them to be a class of laborers detri-mentallo American institutions, and we are in favor of the legal expulsion of those with which the country is now afflicted.

We detounce the "sham" policy of relienchment and reform as carried out by the present administration, and which has closed our Mint, cut downbur mail routes, caused a cessation of public laid surveys, and damaged the material interests if the Brate in such a manner, as to lead us to believe that the people of Nevada have been selected out for punishment because they had the courage to vote their convictions in the campaign of 1886.

We are in favor of a home man for United States Senitor, and our representatives to the Senate and assembly are instructed to use all honorable means to clock a gertleman to that office who is a Nevadan in heart, interests, and actual residence, instead of a man like Senator Fair, whose whole interest and residence are in California.

The present depressed condition of this State demands rigid economy in all public affairs and we require of the nominees of this Convention, and particularly those, for Legislative offices an earnest work to reduce the expenses of both the State and County were meeting and to relieve the people of the present burdensome and versations threation.

Resolved, That sold and silver have been recognized as money from fine immemorial, because each could be exchanged at the Mints of the civilized world-for Bois. Silver did not decline in market so long as the mints of any atta exchange for money. We favor the insendate passage of an act of Congress providing for the free former of, both gold and silver, so that the owner of either of those meals may have it exchanged at our infine store

MISCELLANEOUS.

standard rates for coin of gold or silver certif.

We endorse the earnest and able efforts of Senator Jones and Congressian Woodburn to prevent the Administration from depriving the people of this State of their usual and necessary mail facilities, and their efforts to keep open our mint and to furnish the people of this State with the usual beneats arising from a fair and impartial administration of public affairs, and we particularly commend them for treir able efforts to restore sliver to its original place as money and to defeat the conspiracy of the bondholders to contract the world's money to the single gold standard and thereby double the obligations of contracts and inflict upon the laboring masses such enormous burdens as to reduce them to a condition of slavery.

Resolved, That we regret the failure of Senstor Fair to co-operate with his colleages from this State in their efforts to restore stiver to par and thereby revive silver mining in this State and defeat the bondholders' conspiracy to demonetize that metal. It is unfortunate that Senator Fair's private business was so pressing as to require his absence from his seat in the Senate at all times when any question affecting the use of money has been discussed or voted upon, since he has been a member of the United States Senate. But whatever his private business or interest may have been, we cannot excuse his silence on the great issue with regard to silver, in which our State is so vitally interested, and which he was elected to foster and protect. We charge him with utter disregard of his duty to his constituen sin failing to playe on the records of the benate his opinions upon this question. In all charity to min we hope he is not a bendholder, and therefore interested in the demonstration of of silver, and the destruction of silver mining in this State.

We favor the restoration of the Republican tariff on wool and the maintenance of the general features of the present protective their and oppose free trade and the degradation of labor in this country which must result from competition with Europe and China if the Democratic dogma of free trade should be adopted.

The Republican party has done more to re-lieve the oppressed than any other power over felt on earth and it cannot look without sym-pathy and earnest solicitude upon the efforts being made to arrive at a humane and honora-able solution of the questions that have so lately been at issue between England and Ire-land. land.
We denounce the action of the Democratic
House in refusing all expressions of sympathy
with the Home Rule movement, while the Republican members always support such iteso

publican members always support such meso lutions.

Resolved, That the Republican party has ever stood as the friend of labor against all who would either oppress or enslave it; and every measure, either fitte or national, which will protect the laborer trom dangerous foreign competition, or improve and dignify his condition, at home, will meet with our unqualified approval. Unswerving in our hatility to Amarchism, Socialism and Communism, we favor such wise legislation as may insure that harmony which ought always to prevail between the engloyer and the employe. We recognize the right of all men by association to promote their mutual good and protection in every way that does not infringe upon the rights of others,
